

Dear all,

Please join us in welcoming Jason Rahman as our new Division Manager for the Cardiology and Pulmonary Divisions at ZSFG. Jason received his BA in Economics with an emphasis in Accounting from the University of California, Santa Cruz. Jason has over nine years of progressive experience in finance, HR, and operations at UCSF and most recently held the position of Assistant Division Manager for the Division of General Internal Medicine in the Department of Medicine.

Jason held various roles at UCSF starting as an accountant in the Controller's Office. He then moved to the Department of Radiology as a post award lead supporting a team of seven analysts along with managing the awards of 18 faculty. As his career progressed, he transitioned into becoming the finance manager in the Department of Otolaryngology managing the clinical revenue, budgets, and day to day operations for the department. In his most recent role in General Internal Medicine, he provided HR, financial, and operational support to over 120 faculty and staff. His contributions include creating a new automated faculty pay plan template, creating a new process flow for administrative and research reconciliations, and modifying the monthly clinical target dashboard.

Jason was born and raised in San Francisco and worked at UCSF for the majority of his career. He recently got married to his wife, Sonam, whom he met at UCSF, and they are parents to a one-year-old French Bulldog named Mr. Mochi. When he is not at work, he likes to spend time with family and friends and root for his home town team, the Golden State Warriors.

Jason is excited to join the team and promote the vision, mission, and values of serving the underprivileged population in San Francisco. He will start at ZSFG on August 19th and looks forward to meeting everyone and learning about each division.

We are thrilled that he is joining our team! Please take a moment to wish Jason a warm welcome to ZSFG.

Thank you,  
Laurae
